

Big Data Systems Project Proposal Template

Report last updated: [students to provide date]

Instructions: Each team can use this template to provide a brief (1-2 page) project proposal.

Student Names

Name 1
Name 2

Project Aims

Provide a brief description of what you hope to accomplish with this project.

Data Elements and Sources

Provide a brief description of the data you plan to use and where you might find it

Resources

Briefly discuss papers, packages, and tools that you think will be helpful

Future Work Plan

Outline your work plan for the remainder of the term. This should include all important tasks. Presentations and project submissions will take place during the final week of class.

Task Description	Date
[Enter description 1 here]	[Enter date, week, or month]
[Enter description 2 here]	[Enter date, week, or month]
...	...
